Step by step assembly instructions

- 1) Loosen the MOVIEtube PR rig camera table and remove the 4 screws from the camera table holder

- 2) Attach the bent camera table extension with 4 screws to the camera table holder

- 3) Attach the camera table to the camera table extension

4) Unscrew the 19-mm MOVIEtube rod holder

5) Attach the 1D upgrade to the Sony quick-release plate

6) Screw the 1D camera table support on the extended camera table top

- 7) "Ready to shoot" with all larger DSLR cameras, for example Canon 1D Mark4

Remark:

The table support for a normal camera table can now be used as a lens support if required.
Important: tighten the red screw on the camera table support properly by hand, so that the table is fastened at the three-points in a stable manner.

8) Scope of delivery
